REDUCING SINGLE USE PLASTIC:

Sky - as part of the Sky Ocean Rescue #passonplastic campaign, have worked with HellermannTyton in stamping out single use plastic. For a while now, all SKY deliveries of copper patch leads, fibre patch leads and POD boxes are supplied WITHOUT polybags and now in recyclable cardboard boxes.

“ It's great to see our partners like HellermannTyton working to turn off the single-use plastic tap. It's only by working together that we can hope to create real change and bring an end to this issue. ”

- Fiona Ball, Group Director, Bigger Picture, Sky
