Patch Leads

Stranded and Solid

RJ45C5E-10.0M-S-LS/VI

RJ45C5E-10.0MLS Colour Selection

RJ45C5ESLD-10.0M

Product Description

All Category 5e patch leads are available in both stranded and solid core variations and are made to order in our Northampton factory. This provides flexibility for your project requirements allowing you to request bespoke wire maps (Crossover etc..) lengths and labelling.

Each patch lead is individually tested and quality checked before it leaves the factory.

NBase-T COMPATIBLE NBASE-T 2.5Gbs Ready.

Product Description

HellermannTyton manufactures and assembles a comprehensive range of connectivity solutions for Category 5e installations covering a wide range of applications. From 50x25mm Euro outlets that compliment standard euro faceplates and wiring accessories through to our modular keystone system for higher density applications.

Renowned for the quality in performance and environmental robustness, all connectivity outlets are inclusive of our 25 year system warranty.

NBASE-T 2.5Gbs Ready.

Panels

1U and 2U

HT-PPUC5E-1U24RS

HT2408PBU5E-M/BK MSK

NGM2408IDC-S5E/BK

1/4808IDC C5E/BK

Product Description

Our Category 5e patch panel range offers variety for installation preference. The flagship 180° punch down panels come in unshielded 1U 24 port. The traditional 90° tray style panels come in 1U 24 port or 1U 48 port for high density applications. The range is completed with a fully shielded 1U 24 port patch panel for networks that are situated within areas of high electro-magnetic interference.

NBase-T NBASE-T 2.5Gbs Ready.

HellermannTyton

Product Description

The RapidNet product range is a pre-terminated and pre-tested network solution that offers speed and convenience within mission critical environments.

The Category 5e RapidNet solution is ideal for environments where rapid deployment of 1gb ethernet is required. Suitable for enterprise, M&E and retrofit markets.

RapidNet offers a number of connectivity options to give you flexibility and choice within your network design.

Features and Benefits
- Exceeds Category 5e performance standards
- Capacity up to 24 Ports per 1U
- Factory pre-terminated and tested
- Reduce installation times by up to 85%
- Ideal solution for commercial, office and retro fit
- Backward compatible with voice
- Available in Dca Euroclass

NBase-T COMPATIBLE NBASE-T 2.5Gbs Ready.
