RJ45NGBSLD-10.0MLSGY

Product Description

All Category 6 patch leads are available in both stranded and solid core variations and are made to order in our Northampton factory. This provides flexibility for your project requirements allowing you to request bespoke wire maps (Crossover etc..) lengths and labelling.

Each patch lead is individually tested and quality checked before it leaves the factory.

 NBASE-T 5Gbs & 2.5Gbs Ready.

Product Description

HellermannTyton manufactures and assembles a comprehensive range of connectivity solutions for Category 6 installations covering a wide range of applications. From 50x25mm Euro outlets that compliment standard euro faceplates and wiring accessories through to our modular keystone system for higher density applications.

Renowned for the quality in performance and environmental robustness, all connectivity outlets are inclusive of our 25 year System Warranty.

NBASE-T 5Gbs & 2.5Gbs Ready.

Panels

1U and 2U

HT-PPUC6-1U24RS

HT2408PB-UC6-M/BK

NGM2408IDC-S6/BK

1/4808IDC C6/BK

Product Description

Our Category 6 patch panel range offers variety for installation preference. The flagship 180° punch down panels come in unshielded 1U 24 port. The traditional 90° tray style panels come in 1U 24 port or 1U 48 port for high density applications. The range is completed with a fully shielded 1U 24 port patch panel for networks that are situated within areas of high electro-magnetic interference.

 NBASE-T 5Gbs & 2.5Gbs Ready.

Product Description

The RapidNet product range is a pre-terminated and pre-tested network solution that offers speed and convenience within mission critical environments.

The Category 6 RapidNet solution is perfectly suited for office premises where Class E is now the minimum recommended system to be installed.

RapidNet offers a number of connectivity options to give you flexibility and choice within your network design.

Features and Benefits

- Exceeds Category 6 performance standards
- Capacity up to 48 Ports per 1U
- Factory pre-terminated and tested
- Reduce installation times by up to 85%
- Ideal solution for Commercial, office & data centre
- Backward compatible with Cat5e and voice
- Available in Dca and Cca Euroclass

 NBASE-T 5Gbs & 2.5Gbs Ready.
