

**15th July 2010, Northampton, UK**

The extended fibre optic range from **HellermannTyton** offers everything you need for your fibre network; quality, performance, flexibility, choice and value.

Available in both singlemode and multimode options, HellermannTyton's range of connectors, adaptors, pig tails, patch leads and patch panels provide the foundations of a solid fibre product portfolio. LC and SC formats are available as standard across the fibre range and all terminated fibre is supplied with test results.

RapidNet from HellermannTyton is the industry leading pre-terminated system that can reduce the installation times by up to 95%. As well as reduced installation times, RapidNet is pre-tested which minimises risk and guarantee's performance when installed on site.

RapidNet fibre supports many different applications with its varied range of format presentations and cable options.

RapidNet can offer up to 12 fibres in SC, up to 24 fibres in LC and up to 72 fibres in MTP. With 4 RapidNet cassettes fitting in the 1U RapidNet panel, a maximum of 288 fibres in 1U of space is achievable.

The MTP VHD cassette use 6 high quality US Conec MTP connectors, minimising losses across the link and providing a potential upgrade path from 10G through to 100G. The combination of MTP and RapidNet ensures reduced installation times, high performance and efficient use of space with installations in areas of limited space made easier.

**About HellermannTyton**

Founded in 1988, HellermannTyton Data Ltd is an established leader in the design, development and manufacture of innovative network infrastructure solutions for both LAN and WAN environments. The company offers a broad range of quality, high performance structured cabling products including Deca<sup>10</sup>; the unique pre-terminated, 'plug & play' RapidNet<sup>TM</sup> system; iD intelligent infrastructure management; and a full range of market leading closures for Broadband applications incorporating the patented Cablelok<sup>TM</sup> mechanical seal. Based in Northampton, the company is part of the global HellermannTyton group with operations in 34 countries worldwide. For more information visit [www.htdata.co.uk](http://www.htdata.co.uk)
