

Ductlok

R and D Port Ductlok Seal

Technical Description

The HellermannTyton Ductlok is a mechanical duct seal designed to provide a quick and simple solution for the connection of 7mm and 10mm duct to the HellermannTyton range of dome closures.

The Ductlok range consists of a 7mm seal for use with the R Port and a 10mm seal for use with the D Port on the HellermannTyton closures providing a secure and repeatable seal.

Features and benefits

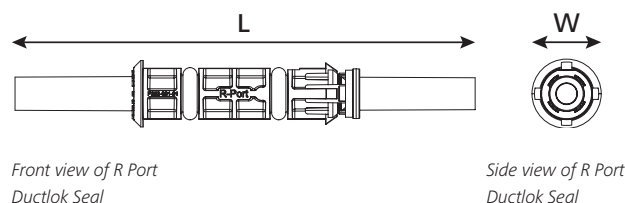

- Quick and simple installation
- R Port and D Port versions available
- Allows for closure to pre-tubed for later connection
- Suitable for use with the following dome closures
 - FDN 59 Port Base
 - CFN R Port Base
 - CFN D Port Base
 - FRBU
 - FST
