

HC MMCH W

Half Size Unloaded Chassis

The Half Size Unloaded Chassis becomes the central distribution point in which all services to be managed and distributed throughout the property. Usually located under the stairs, in a cupboard or in a utility room the Chassis can be fixed to the wall. The Chassis features four cable glands, two on the top and two on the bottom. In addition to these there are cut-outs on the back to introduce cables from behind in a hidden manner. Hinged lid and fixings for equipment and the swing frame are provided.

Specification:

- Powder coated white mild steel
- Swing frame ready
- White hinged mild steel lid
- Dimensions W x D x H: 255 x 150 x 434mm

Subject to design changes. 01/07
