Education Connectivity Solutions

Connecting Schools and Universities

MADE TO CONNECT

Why choose HellermannTyton

Selecting HellermannTyton for your network infrastructure gives you peace of mind, knowing that the system will be installed easily, will perform well first time and will continue to operate to the same high level throughout its life.

In the unlikely event that there are any difficulties, you have the reassurance of UK technical support and a warranty that is backed by a large financially stable British company with a long history in the data market. Ultimately, choosing HellermannTyton significantly reduces the risk of your project.

Education *Solar* *Wind* *Telecoms* *Defence* *Security*

Aerospace *Rail* *Data Centre* *Finance* *Sports & Leisure* *Rural*

With knowledge and expertise in these areas, HellermannTyton Connectivity have a solution for almost any application.

## Quality of the Products, the Designs and Materials

- Components and cable are designed for quality, not to minimise costs.
- Reliability and performance on installation.
- Longevity – products will continue to perform throughout their life.
- Performance – consistent and high performance against the international standards.

Industry Leading Solutions - RapidNet

RapidNet is the world-leading pre-terminated, pre-tested cabling infrastructure solution from HellermannTyton.

The RapidNet range helps address a number of on-site installation issues including:

- Space Efficiency
- Reduced Installation times
- Performance
- On-site security
- Environmental Impact

Credibility of the Warranty

- Part of the multi billion dollar Aptiv Group - significant financial scale and stability and therefore able to meet the obligations of a warranty claim now and in the future.
- Network of approved installers trained by HellermannTyton at the facility in Northampton ensuring the quality of the installation.
- A direct warranty relationship between HellermannTyton, the manufacturer, and the end user customer.

HellermannTyton

With over 30 years of industry knowledge and expertise, HellermannTyton is a leading UK manufacturer based centrally in Northampton.

LAN Copper and Fibre

For LAN markets including data centres, Education, Health, commercial buildings and Finance sector, HellermannTyton manufacture a wide range of network infrastructure products.

From data outlets to patch panels, from cable to pre-terminated solutions, all of these products are available in both copper and fibre formats, all assembled and tested to the highest standards.

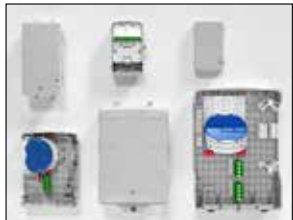

Fibre to the Campus

HellermannTyton manufacture a huge range of fibre broadband products and are one of the largest producers supporting the FTTx growth across the UK and Europe.

HellermannTyton offer a full end to end solution for last mile applications from external street cabinets to internal MDU enclosures and Fibre Wall Outlets.

Our FTTx portfolio of products caters for small fibre counts in residential areas up to the high fibre capacities required in large enterprise or campus environments.

Pre-terminated Solutions

RapidNet is HellermannTyton's leading pre-terminated, pre-tested modular 'plug and play' solution.

The copper or fibre RapidNet system is manufactured to customer specification and pre-tested before it is sent to site, reducing installation times by up to 85%.
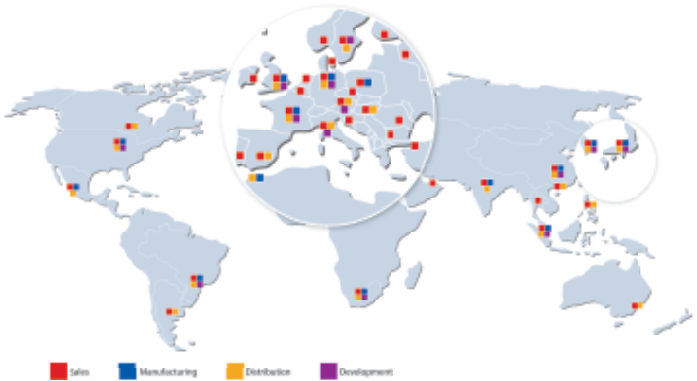

Think Global, Act Local

Global expertise on a local level for structured cabling connectivity is available through our network of HellermannTyton approved installers.

Wherever you are, we are never far away from your build, maintenance or refurbishment projects. Visit **www.htdata.co.uk** for an overview of where our products fit in your industry portfolio.

HellermannTyton Global operate 18 world-class manufacturing facilities and develop products in 13 countries.

More than 6,000 employees work at HellermannTyton in 39 countries and offer you first-class service and advice.
