

Tamper evident security labelling, thermal transfer

• Material 1203 (Silver)

Features and Benefits

These labels are particularly suitable for permanent identification on flat surfaces for production equipment or IT devices. Using unique numbering, graphics or barcodes the labels give excellent asset identification possibilities. The extensive range has sizes to suit most needs.

Highly visible tamper evidence.

Thermal Transfer Printer

Material Data	
Material	Type 1203, Polyester (PET), silver matt (SR), tamper proof
Operating Temperature	-40 °C to +120 °C
Curing Temperature	from +7°C
Recommended Ribbon Type	TT822OUT
Adhesive	Acrylic
Thickness of Foil (µm)	53
Chem. Material Properties	Excellent resistance to water, alcohol, most oils, greases, fuel, freezing fluid, brake fluid, aliphatic solvents, weak acids, salts and alkalis.

Technical Table

Article-No.	Type	Colour	Width (W)	Height (H)	Width of Liner (WL)	Labels per Row	Pack Cont.
596-71120	TAG71TD6-1203-SR	Silver (SR)	12.70	11.10	101.60	6	15000

Tamper evident security labelling, thermal transfer

- Material 1208 (White), fragmenting

Features and Benefits

The specially formulated material is made to fragment if it is picked. The construction has a weakness built in that will immediately indicate if anyone has been tampering with the label. It is extremely difficult to pick away all the fragments left behind and simply over-labelling will not work. As with all security labelling if another label is applied on top the fragmented label underneath will be seen.

Assets can therefore be marked securely and unambiguously. The labels can be printed with customer unique references using text, graphics and barcodes as required.

For problem-free printing, we recommend Tagprint Pro software, TT4000+ and TT420+ printers with TT822OUT ribbons.

A secure way of identifying ...

... if an asset label has been tampered with.

Thermal Transfer Printer

Material Data	
Material	Type 1208, Acrylate foil (AC), white (WH), tamper proof
Operating Temperature	-40 °C to +100 °C
Curing Temperature	From +10 °C
Recommended Ribbon Type	TT822OUT
Adhesive	Acrylic
Thickness of Foil (µm)	50
Chem. Material Properties	Resistant to oils, water and solvents

Tamper evident security labelling, thermal transfer

- Material 951 (Silver), 2 parts

Features and Benefits

This type of label has been developed especially for the requirements of marking on vehicles. When used in conjunction with the appropriate protective laminate, they are ideal due to their very high durability in outside use. The fraud-proof layer acts as a seal. Since it can only be removed by destroying it, any tampering can be spotted immediately. Use of the type rating plate type 951A in conjunction with the type 951B laminate for chemical and mechanical protection meets the requirements of the KBA (German Federal Motor Transport Authority).

For problem-free printing, we recommend Tagprint Pro software, TT4000+ or TT420+ using TT822OUT ribbon.

Type plate of an HGV trailer with protective laminate.

Thermal Transfer Printer

The printed silver type plate (Mat. 951A) is protected by the transparent laminate (Mat 951B).

Material Data	
Material	Type 951, Polyester, silver (SR) and Polyester, transparent (CL)
Application	For automotive and electric industries for tamper proof applications. Particularly suitable as type label according to norms of German Kraftfahrtbundesamt (KBA).
Recommended Ribbon Type	TT822OUT
Operating Temperature	-40 °C to +150 °C
Curing Temperature	from 0 °C
